PROFILE

Frontend Developer with 2+ years of hands-on experience building web applications in React and TypeScript. I currently focus on Next.js and building administrative applications for B2C e-commerce.

Before moving into IT, I spent over 12 years working in logistics and law — I draw on that experience today when working with complex systems and unfamiliar code.

At the same time, I build my own full-stack projects with PostgreSQL, Drizzle ORM, TanStack Start, and LLM integrations, where I work on server-side logic, data validation, and database design.

EXPERIENCE

Frontend Developer

Xtuning s.r.o. (AgroEcoPower) | 09/2025 – present · Full-time · Jihlava (hybrid)

- Migrated critical UI components from a legacy environment to a modern architecture based on Server Components and Client Components, removing the dependency on the legacy solution and enabling further development of the application.
- Develop new modules for the administrative platform of a B2C e-commerce business and help maintain existing functionality.
- Design and implement new roles in the RBAC system based on business requirements.
- Build reusable components (forwardRef, Custom Hooks, Context API) that reduce code duplication across the application.
- Integrate REST APIs and collaborate with the backend team on designing new features.

Frontend Web Developer

WeFriiends | 10/2023 – 01/2026 · Remote

- Developed a web application in React and TypeScript as part of a team, with regular sprints and weekly meetings.
- Integrated REST APIs for real-time data synchronization.
- Collaborated with designers in Figma, participated in sprint planning.
- Worked with a Git workflow and pull requests.
- Basic SQL and database work on the project.

Transport Coordinator

Corax | 08/2020 – 08/2025 · Full-time · České Budějovice

- Organized logistics processes, working with specialized transport management systems (TMS) for major logistics clients.
- Set up and simplified internal administrative procedures, ensured regulatory compliance.
- Coordinated communication between drivers, dispatchers, and departments to prevent delays in information handoff.

Head of Department, Lawyer

Administrative Office, Russia | 09/2007 – 01/2019 · Full-time · Ufa, Russia

- Led a team and was responsible for the department's results.
- Provided legal support, document analysis, and administration.

TECHNICAL PROJECTS

Praetor (2026) — subject management module (legal-tech prototype)

GitHub: github.com/Regi25/praetor | Demo: praetor-tan.vercel.app

- Frontend prototype for managing subjects in a legal-tech context (**React, TypeScript, Vite, Tailwind**).
- The data model separates a subject's master record from its link to a specific case file — addressing the real-world need for one subject to appear on multiple files in different roles.
- Company lookup via the ARES registry by company ID, type-safe form state handling, accessibility support (focus management, keyboard navigation).

Snaprime (2026) — AI ad generator from a URL

GitHub: github.com/Regi25/snaprime | Demo: snaprime.pages.dev

- Full-stack AI application (**TanStack Start, PostgreSQL, Drizzle ORM**) that turns a website URL into a structured brand profile and then generates marketing copy using an LLM (Groq).
- Server-side validation of AI outputs using Zod.

SKILLS

Languages: Russian (native) · Czech B2 · English B1/B2 (working proficiency)

Frontend: React · Next.js (App Router, Server/Client Components) · TypeScript · JavaScript · Tailwind CSS · React Hooks · Context API

Libraries: React Hook Form · Zod

Backend: PostgreSQL · Drizzle ORM · REST API · SQL (basics) · Server Functions

AI: LLM API (Groq) · structured validation with Zod

Tools: Git · Pull Requests / Code Review · Figma · RBAC

EDUCATION

CanSheCode — Advanced Flutter Development Course

2024 – 2025 · Mobile app development, UI, and state management in Flutter.

Czechitas, Prague — Digital Academy: Web

2022 · Intensive course focused on HTML, CSS, JavaScript, React, and UI/UX.

Bashkir State University, Russia

2002 – 2009 · University degree in International Relations and Law.

INTERESTS

Traveling and learning about new cultures.
